

Team Name: sdmay24-26

Team Members:

- Dillon Hacker
- Cameron Hurt
- Michael Gohr
- Samuel Potter
- Trent Walraven

Report Period: Oct 9- Oct 22

### **Summary of Progress in this Period**

- During this period we completed our Ethics/ Professional conduct reflections
  - During this period we completed the Engineering Design Document Analysis
  - We had multiple opportunities to meet with our Client/ Point of contact and were able to discuss project goals and timeline.
  - We were able to continue gathering and writing code that will provide us with the necessary information to complete our project.
  - We were able to better understand our server environment and how to use Firecracker
- 

### **Pending Issues**

- Now that we have written some code and started implementing our design we will continue to write code and test it locally
  - Continue discussions with our client about timeline and necessary actions to complete our project
  - After testing code locally we will have to test it on our server and make sure that it is still working properly
  - Testing Lightning Talk
  - Testing Design Document Analysis
- 

### **Plans for the Upcoming Reporting Period**

- Have finished the Testing Design Document Analysis
  - Have finished the Testing Lightning Talk
  - Have completed some of the necessary steps for our code requirements
  - Begin testing code on the server in the testing environment and making sure it is working the same locally as it is on the server
-
